

Kidney Transplant Trial Watch September 2013

The **Kidney Transplant Trial Watch** keeps you informed about recently published RCTs in Kidney Transplantation.

We carefully select new RCTs and include a brief description, an assessment of the reporting of methodological quality features, and the main **conclusions** of the report written by the Centre for Evidence in Transplantation (CET).

Interested in more? All RCT's and Systematic Reviews in kidney transplantation are available in the [Transplant Library database!](#)

September 2013

Kidney transplantation

- [Improving outcomes of renal transplant recipients With behavioural adherence contracts: a randomized controlled trial.](#)
